**BECOME A
Dream
BUILDER**

I want to
receive a child
story & photo
each month by
becoming a Dreambuilder
\$30 / month.

THANK YOU FOR YOUR SUPPORT

Thanks to your support CBC has been successfully helping children in the slums of Fortaleza, Brazil for the last 30 years. Children growing up here experience poverty, overcrowding, domestic abuse and injustice. Schools, hospitals and roads are in a terrible state. Children's diets are typically unhealthy, there is insufficient sanitation and clean water. On top of this daily casualties from drug related violence are at a level equivalent level to a civil war zone.

The Violent Slums Of Brazil

While most teens are posting selfies and 'good time' photos on Facebook, teenagers in the slums of Brazil are posting trophy photos of dead gang rivals and bragging about how many bullets they shot them with.

This is the unfortunate reality of the community where Channel To Brazil For Christ has been faithfully serving children for 30 years. The need is still great but there are also 100's of now adult members of the community whose lives have been turned around.

Here's the story of Nataneal.

Nathanael is 25 and a former student of CBC. Today he is the proud owner of his own motobike repair shop, a committed Christian and is getting ready to start a family.

"Being honest is the most important thing I learned at CBC" says Nataneal. My favorite memory was climbing trees and playing in the grounds of CBC because it was the only safe place we had to run around."

As a business owner, Nathanael faces constant challenges. People often come to him asking him to change parts on stolen bikes. *"I won't have anything to do with stolen motor-bikes" says Nataneal, most people know that now and my business is still growing thanks to God's goodness and grace."*

DESTINATION DETOUR...

Brazil's poorest region is the North-east. Less than 50% of children finish high school. Fortaleza has one of the highest murder rates in the world. Physical conditions in the slums are sickening, especially in the rainy season.

Without help the destination of children are prostitution, drug addiction, gang involvement, poverty and hopelessness.

CBC is changing the destination of 100's of children.

2015 PROJECTS

URGENT Needs To Keep Our Services Running And Our Children Safe

The ministry of CBC has always been about transforming the lives of children. We do not operate as a business or receive any money from the Brazilian government. We are constantly giving everything we have to provide our daily services of education, clean food and water, counselling and care.

We need your support to maintain and equip our facilities. These project funds are necessary in addition to our general funds which pay for our daily services.

Please respond by making a gift or a commitment to fundraising using the form below.

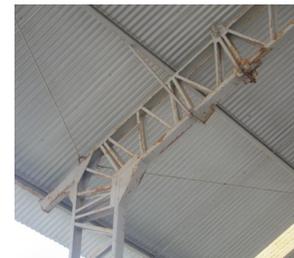

WELL PROJECT

Brazil is currently experiencing an unprecedented drought. Creating a sustainable and clean source of water for the ministry of CBC is part of our long term strategy.

- Contracting a local company to dig 250ft and frame a well.
- The company will also install an electric pump to extract water to a storage tower.

PROJECT COST \$ 9,750

GYMNASIUM MAINTENANCE

Our recent project to install bathrooms in the gymnasium is almost complete. The high beams of the structure now need to be painted as they are beginning to rust.

PROJECT COST \$11,350

EXTERNAL WALLS

- Re-plastering and painting the recently fortified walls on 2 sides of the project. Totalling 640 linear ft.
- Clear ground and lay concrete on the exterior sidewalk to prevent the dumping of trash.

PROJECT COST \$20,000
